

Autex Interior Acoustics and Quietspace® products are extremely durable and require little attention to maintain their good looks. Light vacuuming on a regular basis will prevent dust build up and most marks can be cleaned with a mild detergent solution followed by rinsing and blotting. Stains should be dealt with according to the chart below.

Before carrying out a proposed cleaning method, apply to a concealed section to ensure it will not affect the adhesive or product. Avoid severe abrasion. Spot clean only. Vacuum to restore pile, but do not use a stiff brush.

NB: We do not recommend using solvent-based solutions on Autex Interior Acoustics and Quietspace® products.

Stain	Treatment Guide
Blood	A C
Burn/Scorch Mark	K
Chewing Gum	B C D I
Chocolate	B C D
Cooking Oils	B C D

Mud	B C
Nail Polish	A G
Oil	B C D
Paint (water based)	A C F
Paint (oil based)	A C D H
Sauces	B C D
Shoe Polish	B C D
Urine	A C
Vomit	A C D
Wine	A Add Salt C

Key
<b>A</b> Mop up excess as soon as possible with a sponge or cloth.
<b>B</b> Remove surplus with a knife edge or appropriate instrument.
<b>C</b> Sponge with a solution of carpet shampoo working from well outside the stain in a circular motion towards the centre (this avoids spreading the stain). Sponge afterwards with clean warm water and mop excess moisture with a clean dry cloth or sponge. Allow to dry then brush gently with a soft brush. If any stain remains, sponge with a solution of one part household bleach to six parts clear water. Thoroughly rinse after treatment.
<b>D</b> Lightly sponge with household dry cleaning fluid and blot. Apply sparingly, as the substance may have an adverse effect on the adhesive.
<b>E</b> Sponge with methylated spirits and blot dry.
<b>F</b> Lubricate the stain with glycerine or petroleum jelly.
<b>G</b> Apply nail polish remover. The nail polish remover should not include lanolin or be of a greasy nature.
<b>H</b> Sponge with turpentine (or substitute).
<b>I</b> Freeze with ice cubes and scrape away while cold.
<b>J</b> Clean with regular extractive carpet cleaner (if possible).
<b>K</b> Use circular cutter and remove damaged portion. Re-glue new piece into place.

### Specialist Finishes

Autex recommends that you contact professional cleaning experts should you require further assistance with the cleaning and maintenance of Autex Interior Acoustic products. Enviro Clean & Restoration have trialled their cleaning regime with the Interior Acoustics product range and we recommend their service for our New Zealand customers. For Australia, ChemDry® have trialled their cleaning regime with the Interior Acoustics product range and we recommend their service. For enquiries in the U.K. or South East Asia contact your local Account Manager.

*Autex offers these recommendations in good faith, however, we cannot be responsible for unsatisfactory results from the proposed treatments.*
